

BARR HILL[®]

TONIC SYRUP

**MADE WITH
REAL CINCHONA BARK**

To craft a tonic that is bolder, more flavorful, and beautifully rich in color, we searched across continents to find the ideal blend of barks from the cinchona tree.

Finished with citrus, herbs and sweetened with our raw honey, Barr Hill Tonic Syrup is now available for your bar program.

Our bar team spent two years perfecting this recipe to craft a tonic that would complement the botanical complexity of our award winning gin and offer a more authentic tonic than the conventional tonic water made with quinine extract.

Ideal for a premium Barr Hill Gin & Tonic or use this tonic syrup to craft a variety of cocktails or mocktails.

WHAT MAKES IT SO SPECIAL:

- 🐝 Sweetened with Barr Hill honey
- 🐝 Color derived from the cinchona bark
- 🐝 Botanicals are extracted through a decoction process
- 🐝 Naturally gluten free
- 🐝 Storage: Store in a cool, dry place unopened for up to 12 months. Once opened, store only in the refrigerator, for up to 60 days.

PRICING

Case: 12 (375mL) - \$252

(Shipping and applicable taxes not included)
